Relational Shifts: A family doesn't have to end Just Because a Marriage does

Julie Rappaport and her ex-husband Lee Liberman co-wrote the book "Relational Shifts: A Family doesn't have to end Just Because a Marriage does."

They were on the show to talk about not only their own experience as a divorced couple who has kept their family united but also give viewers some tips on how not to let a divorce ruin their family.

"Relational Shifts: A Family doesn't have to end Just Because a Marriage does" is available now on Amazon.com, Target.com, and Borderbooks.com.
