

A Family Doesn't Have to End Just Because a Marriage Does

"It's riveting reading. I couldn't put it down." -Donald Mitchell

WHAT

Relational Shifts[™] is a new book that provides families with an intimate portrait of the realities of divorce while offering a potentially positive alternative. Divorce affects all aspects of every family member's physical, mental, emotional, social, sexual, and spiritual self — Does a family have to end just because a marriage does?

WHO

Co-written by Julie Rappaport and former husband Lee Liberman, with their teenage daughter Tasha Liberman, *Relational Shifts*™ offers three unique perspectives on divorce voiced personally by each family member.

HOW

- In their respective, distinct voices, Julie, Lee, and Tasha sound their opinions, reveal their emotions, and recollect their individual experiences about specific events and issues in this family's true story about divorce.
- Each chapter is followed by a provocative discussion of the preceding chapter, along with "Evocations" for consideration.
- The book covers many of the different facets of very difficult subjects regarding divorce money, sexuality, traditions, custody, remarriage, and more.

THEMES

- Divorce
- Family Health
- Spirituality
- · Personal Growth
- Positive Potentiality

Relational Shifts A Family Doesn't Have To End Just Because A Marriage Does. Julie Rappaport Tasha Liberman Lee Liberman

SELLING POINTS

- This book promotes healthy and progressive family dynamics (and may even save some marriages, too).
- In the 2005 U.S. Census Report, almost as many divorces were filed as marriages, and research shows over 40 million living Americans have been divorced.
- Relational Shifts™ offers families and individuals a resource for understanding divorce and other "relational shifts," as well as a commentary on the sociological and historical significance of marriage and divorce in our society.
- Demographics: *Relational Shifts* $^{\text{\tiny M}}$ will appeal to those who are currently considering, or are going through, divorce or are attempting to heal after any relational shift.
- Readership will vary greatly due to the spectrum of speakers in the book; readers can readily identify with the voices of Julie, mother and former wife, Lee, father and former husband, and Tasha, their teenage daughter.
- Also in production is an Audio Book, read by each of the authors.
